Natural Health Product Recall

RE: Recall of Babyganics Kids SPF 50 Mineral Sunscreen Totally Tropical Continuous Spray 170g and Babyganics Kids SPF 50 Mineral Sunscreen Totally Tropical Rollerball 89ml

Dear Valued Retailers and Customers,

Please be advised that SC Johnson & Son, Inc. is recalling certain lots of Babyganics sunscreen products after an impurity was found in the products at levels exceeding the allowable limits, which may pose health risks.

The affected sunscreens are for infants and children from six months to 12 years of age. Adults 18 years and older can also use the spray.

The impurity (a solvent known as monoglyme or 1,2-dimethoxyethane) can be absorbed through the skin and by inhalation, and may cause side effects when used frequently over a large surface area of the body or if inhaled. Side effects may include harm to fetal development and harm to the reproductive system for anyone. While these health consequences are very unlikely, it cannot be ruled out. As a result, the products are being recalled as a precaution.

Health Canada is monitoring the company's recall and its corrective and preventive actions. The Department will inform the public if any new health risks are identified.

The recall type is a Type II, due to the possibility of serious adverse effects, especially in the subpopulation of infants and children under 2 years of age.
